

**Dear Parent,**

**Needed to enquire about your well-being. Hope you and your family is doing well and all your loved ones are safe.**

**COVID 19 is hitting way too close to everyone's home. Those numbers are turning into names and those names into people we know.**

**With a sad heart but with strong faith, today we pray, asking for a full recovery for those with COVID 19, especially those in pain.**

**May God protect and cover us with His healing hand and mercy.**

**Prayers for the elderly, the homeless, the unemployed, the frontline warriors and the caregivers who are exhausted but are not giving up.**

**Pray we all successfully wade through this situation.**

**KINDLY TAKE CARE. Stay Home and be Safe.**

**Dr Hepesh Shepherd  
Principal**
